RAINPLAY

TARGET AUDIENCE:

Any and all music lovers

WHAT PROBLEMS DOES IT SOLVE?

✓ Creates playlist so the user does not have to
✓ Seasonal depression
✓ Increases mood despite the weather
✓ Informs the user of the weather conditions in zip code

WHY IS IT IMPORTANT?

According to science, the weather changes your mood as well as your music choices.

Alex

RAINPLAY

STEPS TO BUILD THE APP:

(01) Organize GitHub and determine roles for team members.

(02) Research API documentation.

(03) Begin UI design.

(04) Access OpenWeatherMap API (using AJAX) to get current weather per zip code.

(05) Access Spotify API (using AJAX) to retrieve playlists based on weather conditions per zip code.

(06) Update HTML with id names.

(07) Dynamically add Spotify playlist into the DOM using jQuery.

(08) Test and finalize UI design.

Gerson explains code (link)

RAINPLAY

APIS:

Open Weather Map API

Spotify API

```
// Weather API key
var weatherApiKey = "5d1cc1876b69aaa35b49428d6c8f441b";

// Spotify API key
var spotifyApiKey =
"BQD6Oq2lvM0uGt6sjTSP5K7hqI97X-sY6yMqwmpjcdO6QDJPxCA1F7Vh3HqBGuJDToBkTckS6
0dAkw7sWP-XpupMrkF5szV0cWvBkiAqqElH-Aeo0-1h5NypnHcdZZXrNxDe_Aqi2mzX9o4k0ti
skifRPSQk7I0gFch6U0GF03LQG_Tcmz2o0UxkPmVjv4biSyGbc2s7KNYmurwEwA";
```

Gerson

RAINPLAY

FUTURE FEATURES:

★ When first opening the site, a playlist based on current zip code will already be displayed.

★ Background color changes based on weather.
(example: rainy = blue, sunny = orange)

★ Display weather widget below input form and/or weather icons.

★ Use Google Maps API.

Micheal

RAINPLAY

OTHER QUESTIONS:

WHY DID WE USE ALEX'S PLAYLISTS ONLY?
This gave us the ability to control the songs on the playlist,
making them editable and personally chosen.
Not generic playlist.

REASONS BEHIND DESIGN CHOICES:
Contemporary, universal, aesthetically pleasing, minimal,
easy to navigate.

HOW TO MONETIZE THIS APP?
Team up with Spotify.

Alex
